**To : Editor in Chief of Jurnal Integrasi Proses**

We want to submit a manuscript by Helda Niawanti and Novy Pralisa Putri entitled “Pemilihan Jenis Pelarut pada Ekstraksi Tanin Dari Daun *Averrhoa Bilimbi* Dengan Metode Soxhletasi” to Jurnal Integrasi Proses. This paper discusses the effect of solvent selection, extraction time and solid/liquid ratio on tannin extraction from *Averrhoa bilimbi* leaves. The idea originates from the tannin content from *Averrhoa bilimbi* leaf that is potential as the sources of natural dye. It might be interesting to the readers of your journal. We decided to publish in Jurnal Integrasi Proses due to the open-access option offered to the author. The open-access will provide us to get more citations and spread our work for everyone. We are excited to hear the good news from you.

Correspondence and phone calls about the paper, please be directed to Helda Niawanti, at the following address, telephone and e-mail address:

Helda Niawanti

Tel: +62-85346422310  
E-mail: niawanti@ft.unmul.ac.id

We affirm that this manuscript is original, has not been published before and is not currently being considered for publication elsewhere.

Thank you very much for your attention to our paper.

Sincerely yours,

**Helda Niawanti, S.T., M.T.**
