Table of Content Vol. 8, no. 2, October 2022

Editors and Reviewers	viii
Table of content	ix
Editorial preface	x
Response Surface Method for optimizing the injection moulding process in bracket production Yusraini Muharni, Galih Permana, Evi Febianti, Hartono Hartono	126-130
A hybrid modified Bat Algorithm with Dynamic Spiral Method for solving mixed integer non-linear programming optimization Atia Sonda, Bobby Kurniawan, Faula Arina, Dyah Lintang Trenggonowati, Asep Ridwan, Maria Ulfah, Putro Ferro Ferdinant, Achmad Bahauddin	131-136
Analysis of vulnerability and capability for development of supply chain resilience framework M. Syahri Nur Afif, Sumarsono Sudarto, M. Ibrahim Ats Tsauri, Hery Sumardiyanto	137-150
Supply-chain risk mitigation with integration House of Risk and fuzzy logic: A case study in bakery industry Maria Ulfah, Putro Ferro Ferdinant, Dyah Lintang Trenggonowati, Missela Salsabila	151-157
Measuring the impact of practicum schedule and mental workload on stress levels in hybrid learning: A case study in Physics practicum Ani Umyati, Selli Yanasari, Nuraida Wahyuni, Ade Sri Mariawati	158-163
Analysis of occupational health and safety at skin cracker factory using Hazard and Operability Study (HAZOP) Santika Sari, Hashifah Husna, Laela Aziani Novitasari, Alfika Putri Kirana, Muhammad Sirozjudin Munir, Adinda Zahara Lailah Zain, Tariska Aaliyah Tsabitah	164-169
Hazard identification in fabrication industry using Hazard Identification and Risk Assessment (HIRA) and Job Safety Analysis (JSA) Lely Herlina, Nustin Merdiana Dewantari, Atia Sonda, Moch. Rizky Mulyana	170-175
Interior design marketing strategy using SWOT analysis Nuraida Wahyuni, Shanti Kirana Anggraeni, Gilang Restu Saepudin	176-180
Improving the efficiency of material transfer system using Value Stream Mapping (VSM): A case study in the shoe industry Yuliani Fauziah, Erik Odi Wijaya, Indra Setiawan, Bayu Hari Nugroho	181-186
Analysis of occupational health and safety at a maritime warehouse using Hazard Identification, Risk Assessment and Risk Control (HIRARC) Asep Ridwan, Apriansyah Nuroni, Adelia Adelia, Atia Sonda	187-192
Shared-storage layout for redesigning the damaged-goods warehouse Yudi Sukmono, Taufiq Qurrahman, Farida Djumiati Sitania	193-198
Risk management analysis in electrochlorination plant using House of Risk Shanti Kirana Anggraeni, Nuraida Wahyuni, Desi Ramdhani	199-203
A fuzzy FMEA for detecting the risk of defects in polyethylene (PE) film products Erni Krisnaningsih, Imam Ribowo Sakti, Saleh Dwiyatno, Asep Ridwan	204-209
Index of authors	xi

Editorial Preface

Greetings,

The editorial board expresses deep gratitude to the authors who have submitted their articles to the Journal Industrial Services (JISS) in this issue. In addition, we want to thank the editorial board and reviewers who have contributed to this edition.

This issue is the first issue where all articles are in English. Journal of Industrial Services (JISS) vol. 8 no. 2 consists of 13 articles submitted by authors from 7 universities in Indonesia. It is an honor for us, who have won the trust of various writers.

The editorial board always strives to improve the quality of JISS. JISS is a journal accredited by Dikti with the rank of Sinta 4. Therefore, the editorial board is trying to improve the JISS rating. One of the efforts made by the editorial board is to add an editorial advisory board from Waseda University, Prof. Shigeru Fujimura. We also increased the number of international reviewers (Dr. Wen Song and Fellek Getu Tadesse) to improve the quality of submitted articles.

The next edition of JISS will be published in April 2023. We always welcome constructive criticism and suggestions to improve the quality of JISS.

Sincerely,

Editorial Office
